FINANCIAL ASSISTANCE AVAILABLE TO STUDENTS

The information below summarizes the financial aid options available to Genesis students.

Federal Pell Grant: Federal Pell Grants are awards to help undergraduate students pay for their education. These grants provide a "foundation" of financial aid, to which aid from other federal and non-federal sources may be added. Unlike loans, grants do not have to be paid back.

Federal Direct Student Loan Program (DL): Many students rely on federal government loans to finance their educations. These loans, administered by "Direct Lending Schools", are provided by the US government directly to students and their parents. They have low interest rates and do not require credit checks or collateral. Student loans also provide a variety of deferment options and extended repayment terms.

Federal Direct PLUS Loan Programs (PLUS): PLUS loans are federal loans that parents of dependent undergraduate students can use to help pay educational expenses. Unlike direct student loans PLUS loans do require a credit check.

Entrance loan counseling is provided to all prospective and current students and is required by all first time borrowers prior to attending. Exit loan counseling is also provided prior to graduation and is a requirement for completion. During counseling students will receive information on loan terms, a sample repayment schedule, and education on the necessity for repaying loans. Current students may schedule additional counseling sessions by contacting the financial aid department on campus or by emailing Shanna Frasier at sfrasier@genesiscareer.edu.

The following information can be found in the Student Handbook regarding financial aid available to Genesis students:

1. How to apply for aid
2. Student eligibility requirements
3. Criteria for determining award amounts
4. Rights and responsibilities of students receiving Title IV aid
5. Criteria for continued eligibility including the policy on satisfactory progress
6. Disbursement methodology and schedule

All prospective students will receive a Student Handbook prior to enrolling into Genesis. Anyone may request a copy. To request a copy, please contact the Student Services Coordinator on campus for a digital or hard copy.

Copyright Infringement Policy and Sanctions: The making of an electronic or paper copy of a copyrighted work by any means (photocopying, electronic reproduction, scanning, digitizing, etc.) constitutes reproduction that is governed by copyright law. The copyright principles that apply to the use of copyrighted works in electronic environments are the same as those that apply to such use in paper environments.

The reproduction or copying of a work subject to copyright protection typically requires the permission of the copyright owner. However, the copyright law recognizes that in certain situations, copyrighted work may be reproduced without the copyright owner's consent. One such situation is where the doctrine of "fair use" applies.

The following four factors must be considered for determining "fair use"

- The purpose and character of the use, including whether such use is of a commercial nature or is for nonprofit educational purposes.
- The nature of the copyrighted work
- The amount and substantiality of the portion used in relation to the copyrighted work
- The effect of the use upon the potential market for or value of the copyrighted work.

Genesis distributes materials informing the Genesis Community about the appropriate use of copyrighted materials. This information is included in the student catalog, codes of conduct, in addition to e-mail and/or paper disclosures.

Any unauthorized distribution of copyrighted materials will be handled by the Director of Education and a disciplinary hearing may be called.

The school presently has installed on its computer server "Watchdog Software", which monitors the traffic of computer usage. The software also restricts access to only those websites which are on a "safe list". In addition, it prohibits the users from downloading restricted information without the consent of the administrators in charge of the program.

The Institutional Advisory Committee reviews the effectiveness of the plan to combat the unauthorized distribution of copyrighted materials on an outcome basis. A check of a "before and after" comparison of bandwidth, or relapsing into previous problem situations is a way to check on outcomes.

The institution provides an annual notice on a one-to-one basis through a direct notice to each enrolled student. Any student involved in a copyright situation will be referred to the Director of Education and the proper authorities.

Summary of Civil and Criminal Penalties for Violation of Federal Copyright Laws:

Copyright infringement is the act of exercising, without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under section 106 of the Copyright Act (Title 17 of the United States Code). These rights include the right to reproduce or distribute a copyrighted work. In the file-sharing context, downloading or uploading substantial parts of a copyrighted work without authority constitutes an infringement.

Penalties for copyright infringement include civil and criminal penalties. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or “statutory” damages affixed at not less than \$750 and not more than \$30,000 per work infringed. For “willful” infringement, a court may award up to \$150,000 per work infringed. A court can, in its discretion, also assess costs and attorneys’ fees. Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to \$250,000 per offense. For details see title 17, United States Code, Sections 504 and 505.

For more information, please see the Web site of the U.S. Copyright Office at www.copyright.gov, especially their FAQ’s at www.copyright.gov/help/faq.
